Nr. CEMT rămase nealocate prin programul electronic:

**TOTAL CONTINGENT CEMT 2007**

**3**

**1354**

**1**

**1728**

### Notă:

În cazul în care prin repartizarea electronică, numărul autorizațiilor CEMT repartizate a fost mai mare decât numărul autorizațiilor CEMT solicitate, s-a luat în calcul numărul autorizațiilor CEMT solicitate. În acest caz, restricționarea a ținut seama de numărul de autorizații CEMT la care operatorul de transport respectiv ar fi avut dreptul ca urmare a rezultatului repartizării electronice.

În conformitate cu prevederile Metodologiei CEMT 2007, autorizațiile CEMT rămase nedistribuite vor fi puse la dispoziția operatorilor de transport solicitanți care îndeplinesc condițiile menționate la art. 8 din Metodologie și care solicită, motivat, acordarea unor autorizații CEMT suplimentare. Repartizarea acestor autorizații se face în ordinea depunerii cererilor, proporțional cu numărul vehiculelor deținute și utilizate. Prioritate vor avea operatorii de transport care au solicitat mai puține autorizații CEMT decât cele convenite prin repartizarea electronică.

**Libere:** 930 Ungaria, 96 Austria, 330 Italia, 141 Grecia; "liberele" nedistribuite se atribuie autorizațiilor CEMT rămase nealocate.
